

476

have proven to me that your informant was correct in that she has made such statements as you set forth.

The interview, I presume will have to be regarded as unsuccessful, but I have endeavored to give you the facts as I found them without any coloring. If it meets with your approval, I shall continue to watch this situation and perhaps make another visit to the Dickson home if I think there is the least chance of obtaining something further.

If you have any suggestions or directions to give, please let me have them.

Very truly yours,

(Sgd) R. J. Smalley
